

CIRCULATOR FOR HEATING

ALPHA3

BENEFITS

- Communicates with the ALPHA READER and the GO BALANCE app for easy balancing
- No blockage
- No dry-running
- Self-adjustable – AUTOADAPT automatically finds the best pump setting
- Market-leading efficiency

TECHNICAL DATA

Flow rate, Q_{\max} :	3.8 m³/h
Pumped Liquid Temperature:	+2°C - +110°C
Sound Pressure Level:	≤43 dB(A)
Ambient temperature:	0°C to +40°C
Energy Efficiency Index:	EEI≤0.15 (4 meter pump)

BALANCING MADE EASY

INSTALL ALPHA3

Install the state-of-the-art circulator pump enhanced with extra reliability features

ATTACH ALPHA READER

Attach this pocket-sized device to your ALPHA3 pump. Now you are ready to communicate with the pump via the GO BALANCE app.

USE THE GO BALANCE APP

Download the Grundfos app in iTunes or Google Play. The app tells you everything you need to know about every radiator in your installation.
